## ABSOLUTES

Our organically crafted Absolutes are made using modernized technology similar to the ancient method of Enfleurage. The extraction process uses only certified organic solvents such as fixed oils and alcohol to coax the aromatic essence out of the plant material. The resulting bio-available essence, extracted very gently without added heat, captures the intricate aroma of the original plant material, allowing it to be used for true aromatherapy and skincare applications

## AYURVEDIC HERBAL OILS

Our line of pure, organic Ayurvedic Herbal Oils, traditionally crafted using the age-old original recipes, have been relied upon for thousands of years as a fundamental part of Ayurveda. In the ayurvedic tradition, therapeutic oil massage or 'Abhyanga' with Ayurvedic oils is said to balance the three bodily humors, or *doshas* - *vata*, *pitta*, and *kapha*, helping in rejuvenating the mind and healing the body.

## INFUSED & MACERATED OILS

Our line of handcrafted Herbal Infused Oils (also known as a Macerated Oils) are organic carrier oils that has been infused with the goodness of a herb or a flower. By letting herbs and flowers infuse in an oil for a certain period of time we are able to extract many of the powerful and healing properties of the plant into a usable form. These oils are used extensively in skincare formulations, balms, salves, creams, hair treatments and soaps to treat skin conditions, nourish and revitalize the skin.

## HYDROSOLS & FLORAL WATERS

Our range of high-quality Hydrosols (also called 'Hydrolats' or 'Floral Waters') are distilled from freshly picked, optimally harvested organic plants. These delicately scented, energetically vibrant water-based distillates make wonderful single ingredient perfumes, refreshing room fresheners, revitalizing tonics, facial mists, linen sprays, as well as carriers in aromatically stunning aromatherapy blends.

## NATURAL FRAGRANCE OILS

Our range of Plant-Based Natural Fragrance Oils are produced using only pure essential oils and aromatic isolates derived solely from natural, raw botanical sources. These Natural Fragrance Oils are ideal for use in bath and body products (including melt and pour soap bases, cold process soaps, lotions, creams, shampoos and body splash bases) as well as home fragrancing applications (air freshener, surface cleaners, potpourri and candle-making and diffuser oils) where cost-effective fragrance is required and synthetic ingredients are not desired.

# CHAKRA BLENDS

Starting at the base of the spine and going up to the crown of the head, Chakras are focal energy points in our subtle body that distribute the flow of *prana* or energy throughout our body. Aromatherapy can be a powerful and simple tool for opening and balancing these chakras. Our expertly crafted Chakra Essential Oil Blends combine both activating essential oils to energise sluggish chakra function and calming oils to quiet over-active ones, to have an overall balancing and supportive benefit to the chakras.
